

The Trash Free Schools Project:

Green Team Members List

The second step to becoming a Trash Free School, after ensuring hierarchical support (*Principal + Green Team Leader signs TFS Pledge*), is ensuring your school has an organizational and environmental project management structure, also known as a 'Green Team.' The duty of a Green Team is to enact and manage sustainability initiatives at your school as well as ensure the Trash Free Schools Pledge is followed.

Best management practices suggest school green teams should consist of a mix of students, teachers, parents, administrators and custodians or foremen. It is also suggested that your green team have up to ten members with one or two Chairs leading the group. The main roles of your green team will include planning, education, communication, recruitment & implementing projects.

For School Year: [] - []

Please list team roles, names, school titles, emails and phone numbers of your green team:

Team Role	Name	Title	Email	Phone number

Principal's Signature: _____

Date: _____
