

Glue here

**Remove 1P  
SOIL**

Water is being absorbed by plants.

**GO TO PLANTS**

**SOIL**

Water remains on the surface in a puddle or in surface soil.

**STAY**

**Take 2P  
SOIL**

The soil is saturated, so water runs off into a river.

**GO TO RIVER**

**SOIL**

Heat energy causes evaporation.

**GO TO CLOUDS**

**Remove 1P  
SOIL**

Water is pulled by gravity further into the soil.

**GO TO GROUND  
WATER**

**Remove All  
SOIL**

Heat energy causes evaporation.

**GO TO CLOUDS**
